**Subject:** 1 Sept 2017 -- ASPECT Update -- 1105

ASPECT is airborne and transiting back to Arkema for monitoring activities. The site will be monitored every 30 minutes. While not on station over the facility, ASPECT will conduct photo and spectral recon of provided targets. The recon area (Zone 5) will be west of Crosby. Additional zone in the local area have also been worked and are ready for upload into the aircraft.

Please let me know if you have any questions.
